Mindanao | Kabacan, NCO**
Bachelor of Science: Civil
Engineering

PROFESSIONAL SUMMARY

I am currently studying Full Stack Development in KodeGo Bootcamp. In order to kick-start my career before I graduate, I am looking for a job of a web developer. I am ambitious and hard-working and believe you'll give me a chance to prove my words. As a career shifter and learning a Full-Stack Development now, I have gained knowledge of HTML and CSS. Combined with my communication and problem-solving skills, I think I would be a good candidate for the Web Developer role in your company. You can view also my Portfolio Website (<https://stingray008.github.io/My-Portfolio/>). I have always been passionate about web development, which led me to pursue learning more in bootcamp. I am constantly seeking out new technologies and staying up-to-date on trends in the industry.
